

## 2014 ANNUAL EMISSION INVENTORY WORKSHOP SCHEDULE

Air Quality SIP Section  
1110 West Washington Street  
Phoenix, AZ 85007

Michael Burton  
Phone: (602) 771-4562  
Email: [burton.michael@azdeq.gov](mailto:burton.michael@azdeq.gov)

The Arizona Department of Environmental Quality will be holding several workshops that will focus on several air quality topics. The workshops will be divided into three sessions as follows:

1. **SLEIS Workshop.** This session will focus on the utilization of the State and Local Emission Inventory System (SLEIS) that Arizona uses for emission inventory reporting. If you are not using SLEIS but would like to start please attend.
2. **Rock Products Compliance Training.** This session will be targeted toward the rock products industry and will cover the most common air quality violations observed at these facilities along with recommendations on maintaining compliance.
3. **Minor Source Emission Inventory.** This session will focus on using the ADEQ's Excel files for emission reporting. Minor sources are encouraged to use SLEIS as well, so please attend that session if you are interested.

You don't need to attend every session...simply attend those that interest you the most.

Space is limited so please RSVP to [burton.michael@azdeq.gov](mailto:burton.michael@azdeq.gov) if you plan on attending one of the following workshops.

**Be aware that the start and end times for each session presented below are tentative and subject to change. Be sure to check the website prior to the scheduled date for any last minute changes.**
